

EDIBLES

RUBUS

Arapaho Blackberry — *Rubus ursinus* 'Arapaho'

PP #8,510 - Thornless canes with a self-supporting, upright habit and an abundance of flavorful fruit. They are self-pollinating and produce oblong shaped berries that are firm and tasty with rich color.

Item # 798503	Mature Size: 4-5' tall x 4-7' wide	Exposure: Sun	Bloom Color: White flowers
	Bloom Time: Late Spring	Hardiness Zone: 5	Heat Zone: 9

Fall Gold Raspberry — *Rubus idaeus* 'Fall Gold'

An everbearing variety that produces sweet fruit in the summer as well as into the fall. Plump, juicy berries are golden yellow with all the taste of the familiar red raspberry. Excellent for eating fresh, canning or jams.

Item # 798021	Mature Size: 3-4' tall x 4-5' wide	Exposure: Sun	Bloom Color: White flowers
	Bloom Time: Spring	Hardiness Zone: 4	Heat Zone: 8

Heritage Red Raspberry — *Rubus idaeus* 'Heritage'

An everbearing variety that produces moderate crops of fruit from summer to fall. Hardy canes do not require staking. Firm juicy red fruit that is excellent for eating fresh, canning or jams.

Item # 798028	Mature Size: 4-5' tall x 4-5' wide	Exposure: Sun	Bloom Color: White flowers
	Bloom Time: Spring	Hardiness Zone: 4	Heat Zone: 8

Hilton Red Raspberry — *Rubus idaeus* 'Hilton'

A vigorous, productive and usually winter-hardy cultivar. The canes are semi-erect and produce medium red, very large, mid-season fruit. Hilton is one of the largest of all red raspberries. Berries are difficult to pick unless fully ripe.

Item # 798029	Mature Size: 4-5' tall x 4-5' wide	Exposure: Sun	Bloom Color: White flowers
	Bloom Time: Spring	Hardiness Zone: 6	Heat Zone: 8

Jewel Black Raspberry — *Rubus occidentalis* 'Jewel'

Round firm berries, deep in color and rich in flavor making it an excellent selection for jams and jellies. Vigorous self-pollinating with a high resistance to the anthracnose disease.

Item # 798235	Mature Size: 6-10' tall x 4-8' wide	Exposure: Sun	Bloom Color: White flowers
	Bloom Time: Spring	Hardiness Zone: 5	Heat Zone: 8

Navaho Blackberry — *Rubus ursinus* 'Navaho'

Thornless, self-supporting canes with superior quality fruit. Berries are glossy bright and sweeter than other thornless varieties. Especially tasty in jams or for fresh eating.

Item # 798550	Mature Size: 4-5' tall x 4-7' wide	Exposure: Sun	Bloom Color: White flowers
	Bloom Time: Summer	Hardiness Zone: 5	Heat Zone: 9

VACCINIUM

Aiton Blueberry — *Vaccinium angustifolium* 'Aiton'

Sweet bluish-black fruit is produced in mid to late summer. The leaves turn scarlet and crimson in the fall. Native to the NE United States, the berries are an important food source for humans, black bears, small mammals and box turtles.

Item # 930502	Mature Size: 2' tall x 2' wide	Exposure: Sun	Bloom Color: White flowers
	Bloom Time: Spring	Hardiness Zone: 2	Heat Zone: 7

Bluecrop Blueberry — *Vaccinium corymbosum* 'Bluecrop'

Moderate grower with large, light blue berries. Self-pollinating, high yields, generally crack and disease resistant. Ripens in mid-season. Beautiful red fall foliage and red stems. Flowers provide nectar for pollinators and branches provide shelter and nesting sites for birds.

Item # 931012	Mature Size: 5' tall x 4' wide	Exposure: Sun	Bloom Color: White flowers
	Bloom Time: Spring	Hardiness Zone: 4	Heat Zone: 7

Blueray Blueberry — *Vaccinium corymbosum* 'Blueray'

Large, firm blue fruit in early to mid-season. Vigorous growth and high-yield; bears fruit earlier than 'Bluecrop'. Burgundy foliage in fall, deep red stems in winter. Flowers provide nectar for pollinators and branches provide shelter and nesting sites for birds.

Item # 931013	Mature Size: 5' tall x 5' wide	Exposure: Sun	Bloom Color: White flowers
	Bloom Time: Spring	Hardiness Zone: 4	Heat Zone: 7

Heritage Red Raspberry

Bluecrop Blueberry

Pink Lemonade Blueberry

Chippewa Blueberry — *Vaccinium* x 'Chippewa'

Mid-season highbush blueberry with upright growth habit. Produces large, light colored berries with sweet flavor. Self-pollinating. Bright red foliage in fall, red stems in winter.

Item # 931014	Mature Size: 4' tall x 3' wide	Exposure: Sun	Bloom Color: White flowers
	Bloom Time: Spring	Hardiness Zone: 3	Heat Zone: 8

Duke Blueberry — *Vaccinium corymbosum* 'Duke'

A late-blooming, early ripening selection that produces abundant, large, light blue berries in summer with a delicious, sweet-tangy flavor. Pinkish-white flowers provide nectar for pollinators and branches provide shelter and nesting sites for birds.

Item # 931017	Mature Size: 6' tall x 6' wide	Exposure: Sun	Bloom Color: Pinkish white flowers
	Bloom Time: Spring	Hardiness Zone: 4	Heat Zone: 7

Northcountry Blueberry — *Vaccinium* x 'Northcountry'

More vigorous than 'Northsky'. Early season, medium size fruit with a "wild" blueberry flavor. Dark green foliage turns brilliant red in the fall. Red stems add winter interest. Flowers provide nectar for pollinators and branches provide shelter and nesting sites for birds.

Item # 931053	Mature Size: 2' tall x 3' wide	Exposure: Sun	Bloom Color: White Flowers
	Bloom Time: Spring	Hardiness Zone: 5	Heat Zone: 9

Pink Lemonade Blueberry — *Vaccinium* x 'Pink Lemonade'

Pinkish-white flowers produce pale greenish fruit that ripens to an astonishing deep pink color. All the anti-oxidants as its blue cousins, but in an incredible new color. In the Fall, the leaves turn golden yellow to brilliant orange. Pleasant flavored, glossy fruit that ripens in mid-late season. High-bush variety.

Item # 931040	Mature Size: 4-5' tall x 5' wide	Exposure: Sun	Bloom Color: Pinkish-white Flowers
	Bloom Time: Spring	Hardiness Zone: 4	Heat Zone: 8

Polaris Blueberry — *Vaccinium corymbosum* 'Polaris'

A half-high blueberry bush with early fruit. Packed with flavor, blueberries are an important food source for humans, black bears and small mammals. The leaves turn scarlet and crimson in the Fall.

Item # 931062	Mature Size: 3' tall x 3-4' wide	Exposure: Sun	Bloom Color: White flowers
	Bloom Time: Spring	Hardiness Zone: 3	Heat Zone: 7

Sunshine Blue Blueberry — *Vaccinium* x 'Sunshine Blue'

Grows only to 3-4' and is quite ornamental, with pinkish-white flowers, green foliage turns red in the fall. Southern highbush blueberry with abundant fruit. Self-pollinating, cold hardy, and heat tolerant.

Item # 930980	Mature Size: 4' tall x 3' wide	Exposure: Sun	Bloom Color: Pinkish-white flowers
	Bloom Time: Spring	Hardiness Zone: 5	Heat Zone: 9

VITIS

Concord Seedless Grape — *Vitis* Seedless 'Concord'

Mid-season clusters of seedless blue-black fruit with a slipskin. Self pollinating with vigorous growth. Productivity improves as the vine matures and the fruit is ideal for jelly or juice. Requires arbor or trellis.

Item # 943010	Mature Size: 20-25' vine	Exposure: Sun	Bloom Color: Blue-black grapes
	Bloom Time: Late Spring	Hardiness Zone: 4	Heat Zone: 8

Einset Seedless Grape — *Vitis* Seedless 'Einset'

PP #6,160 - A red seedless grape with a strawberry like flavor. Delicious taste and beautifully colored fruits in medium sized clusters that ripen in early mid-season.

Item # 943017	Mature Size: 10-15' vine	Exposure: Sun	Bloom Color: Red grapes
	Bloom Time: Late Spring	Hardiness Zone: 5	Heat Zone: 8

Himrod Seedless Grape — *Vitis* Seedless 'Himrod'

Beautiful greenish flowers in the spring produce white seedless grapes that mature to golden-yellow in color. The contorted vines have fascinating visual interest in the winter. Oval berries are very flavorful.

Item # 943030	Mature Size: 10-15' vine	Exposure: Sun	Bloom Color: White grapes
	Bloom Time: Late Spring	Hardiness Zone: 5	Heat Zone: 8

Lakemont Seedless Grape — *Vitis* Seedless 'Lakemont'

Seedless white grapes with mild flavor gather in loose clusters. A non slipskin variety which means the flesh of the fruit attaches to the skin. Yields as much as 35 lbs per vine. Fruit ripens in late summer to early fall.

Item # 943041	Mature Size: 20-25' vine	Exposure: Sun	Bloom Color: White (green) grapes
	Bloom Time: Late Spring	Hardiness Zone: 4	Heat Zone: 8

Lakemont Seedless Grape

Mars Seedless Grape — *Vitis Seedless 'Mars'*

PP #5,680 - Blue-purple fruit grown in compact clusters. Self-pollinating, vigorous vines that produce excellent crops with yields up to 15 lbs of fruit per year. Ripens in late summer to early fall.

Item # 943045	Mature Size: 20-25' vine Bloom Time: Late Spring	Exposure: Sun Hardiness Zone: 5	Bloom Color: Deep blue grapes Heat Zone: 8
---------------	---	------------------------------------	---

Niagara Seedless Grape — *Vitis Seedless 'Niagara'*

A seedless variety that is commonly used for filling fruit baskets and making wine or jelly. The large clusters of fruit have a very sweet, non-acidic taste and the vines are easily trained to climb trellises.

Item # 943051	Mature Size: 15-20' vine Bloom Time: Late Spring	Exposure: Sun Hardiness Zone: 5	Bloom Color: White (green) grapes Heat Zone: 8
---------------	---	------------------------------------	---

Reliance Seedless Grape — *Vitis Seedless 'Reliance'*

PP #5,174 - Sweet flavored, seedless red grapes that ripen in late Summer to early Fall. The fruit is suitable for fresh eating, jelly or juice. When they shed their summer leaves, the branches and vines add winter interest. A fence, trellis or arbor is needed for support.

Item # 943068	Mature Size: 10-15' vine Bloom Time: Late Spring	Exposure: Sun Hardiness Zone: 4	Bloom Color: Red grapes Heat Zone: 8
---------------	---	------------------------------------	---

Steuben Seedless Grape — *Vitis Seedless 'Steuben'*

Large blue slipskin fruits that are especially fruity in flavor make these seedless grapes excellent for fresh eating. Good general disease and crack resistance on vines that are easy to train. Bright fall leaf color are particularly attractive.

Item # 943071	Mature Size: 15-20' vine Bloom Time: Late Spring	Exposure: Sun Hardiness Zone: 5	Bloom Color: Blue grapes Heat Zone: 8
---------------	---	------------------------------------	--

Reliance Seedless Grape
